About Us

SNK Surfaces is a premium manufacturer and global exporter of natural stones and engineered surfaces from India. Built on a foundation of quality, reliability, and long-term partnerships, the company serves international markets with carefully sourced and precision-finished stone solutions.

Each surface supplied by SNK Surfaces reflects the authenticity of nature, showcasing the inherent character, depth, and variation of the material. Our products are offered in their natural form, without artificial pigmentation, ensuring true color consistency and timeless appeal.
With years of experience in the natural stone industry, we follow strict standards in material selection, processing, and finishing. Our customer-centric approach and commitment to quality guide every stage of production–from sourcing to final delivery.

Our manufacturing capabilities are supported by modern processing infrastructure and skilled craftsmanship, enabling us to meet diverse project requirements across residential, commercial, and architectural applications. We specialize in delivering consistent quality across multiple finishes, sizes, and specifications as per client needs.

Sourcing only from trusted quarries, we maintain a strong focus on premium-grade material and dependable supply. Our streamlined logistics and export expertise ensure timely deliveries and flexibility for global partners.
At SNK Surfaces, we believe in sharing knowledge, building long-term relationships, and growing together with our clients. We invite you to be part of our journey as we continue to bring natural stone surfaces to spaces around the world.
